For courses in classroom assessment where the focus is on how to write, construct, and use assessments as a teacher in the classroom. Also includes coverage of basic measurement theory. This book is designed to bridge the gap between research and K-12 practice in the area of student assessment by presenting practical procedures and guidelines teachers can realistically implement in their busy classrooms. The text focuses on the nuts and bolts of how to write, construct, and use assessments in the classroom, but it also covers and applies the basics of reliability and validity.

Everything students need to know to succeed on the Psychology and Sociology sections of the MCAT exam (Medical College Admission Test) including 3 full-length practice tests.

The Handbook offers models of teaching and learning that go beyond the typical lecture-laboratory format and provides rationales for new practices in the college classroom. It is ideal for graduate teaching assistants, senior faculty and graduate coordinators, and mid-career professors in search of reinvigoration.
