The traditional curriculum tends to highlight the Western heritage, and to race through epochs and regions, leaving little time for an in-depth exploration of concepts and historical themes, for the evaluation of primary and secondary sources, and for students to draw their own historical conclusions. The World of Rome is an introduction to the history and culture of Rome for students at university and at school as well as for anyone seriously interested in the ancient world. Drawing on the latest scholarship, it covers all aspects of the city - its rise to power, what made it great, and why it still engages and challenges us today. The first two chapters outline the history and changing identity of Rome from 1000 BC to AD 476. Subsequent chapters examine the mechanisms of government, the economic and social life of Rome, and Roman ways of looking at and reflecting the world. Frequent quotations from ancient writers and numerous illustrations make this a stimulating and accessible introduction to ancient Rome. The World of Rome is particularly designed to serve as a background book to Reading Latin (Cambridge University Press, 1986).

In A Fatal Thing Happened on the Way to the Forum, Emma Southon examines a trove of real-life homicides from Roman history to
