In *Black Feminist Thought*, Patricia Hill Collins explores the words and ideas of Black feminist intellectuals as well as those African-American women outside academe. She not only provides an interpretive framework for the work of such prominent Black feminist thinkers as Angela Davis, Alice Walker, and Audre Lorde, but she shows the importance of self-defined knowledge for group empowerment.

Black Feminist Thought | Knowledge, Consciousness, and the ...

Black feminist thought is a field of knowledge that is focused on the perspectives and experiences of Black women. There are several arguments in support of this definition. First, Berger and Luckmann (1966); and Mannheim (1936) similarly argue that the definition implies that the overall content of the thought and the historical and factual circumstances of Black women are inseparable.

Black Feminist Thought: Knowledge, Consciousness, and the ...

Black Feminist Thought is the first history and analysis of "Black women's ideas" told in a voice that is "both individual and collective, personal and political, one reflecting the intersection of my unique biography with the larger meaning of my historical times." In it we discover new meanings for selected and neglected traditional female themes like gossip, hair, TV, movies, food, and clothing; get a fresh look at where and how knowledge is produced; learn about self-definition and about ...

In spite of the double burden of racial and gender discrimination, African-American women have developed a rich intellectual tradition that is not widely known. In *Black Feminist Thought*, Patricia Hill Collins explores the words and ideas of Black feminist intellectuals as well as those African-American women outside academe. She provides an interpretive framework for the work of such prominent Black feminist thinkers as Angela Davis, bell hooks, Alice Walker, and Audre Lorde. The result is a superbly crafted book that provides the first synthetic overview of Black feminist thought.

In spite of the double burden of racial and gender discrimination, African-American women have developed a rich intellectual tradition that is not widely known. In *Black Feminist Thought*, Patricia Hill Collins explores the words and ideas of Black feminist intellectuals as well as those African-American women outside academe. She provides an interpretive framework for the work of such prominent Black feminist thinkers as Angela Davis, bell hooks, Alice Walker, and Audre Lorde. The result is a superbly crafted book that provides the first synthetic overview of Black feminist thought.

This revised tenth anniversary edition expands on the arguments of the original edition to include discussions of heterosexism as a system of power, expanded images of black womanhood, U.S. black feminism's connections to black "Diasporic" feminism, and the importance of social class and nationalism.

Shadowboxing presents an explosive analysis of the history and practice of black feminisms, drawing upon political theory, history, and cultural studies in a sweepingly interdisciplinary work. Joy James charts new territory by synthesizing theories of social movements with cultural and identity politics. She brings into the spotlight images of black female agency and

intellectualism in radical and anti-radical political contexts. From a comparative look at Ida B. Wells, Ella Baker, Angela Davis, and Assata Shakur to analyses of the black woman in white cinema and the black man in feminist coalitions, she focuses attention on the invisible or the forgotten. James convincingly demonstrates how images of powerful women are either consigned to oblivion or transformed into icons robbed of intellectual power. *Shadowboxing* honors and analyzes the work of black activists and intellectuals and, along the way, redefines the sharp divide between intellectual work and political movements. A daringly original study, this book changes what it means to be American.

Black Feminist Sociology offers new writings by established and emerging scholars working in a Black feminist tradition. The book centers Black feminist sociology (BFS) within the sociology canon and widens it to feature Black feminist sociologists both outside the US and the academy. Inspired by a BFS lens, the essays are critical, personal, political and oriented toward social justice. Key themes include the origins of BFS, expositions of BFS orientations to research that extend disciplinary norms, and contradictions of the pleasures and costs of such an approach both academically and personally. Authors explore their own sociological legacy of intellectual development to raise critical questions of intellectual thought and self-reflexivity. The book highlights the dynamism of BFS so future generations of scholars can expand upon and beyond the book's key themes.

The concept of intersectionality has become a central topic in academic and activist circles alike. But what exactly does it mean, and why has it emerged as such a vital lens through which to explore how social inequalities of race, class, gender, sexuality, age, ability, and ethnicity shape one another? In this fully revised and expanded second edition of their popular text, Patricia Hill Collins and Sirma Bilge provide a much-needed introduction to the field of intersectional knowledge and praxis. Analyzing the emergence, growth, and contours of the concept of intersectionality, the authors also consider its global reach through an array of new topics such as the rise of far-right populism, reproductive justice, climate change, and digital environments and cultures. Accessibly written and drawing on a plethora of lively examples to illustrate its arguments, the book highlights intersectionality's potential for understanding complex architecture of social and economic inequalities and bringing about social justice-oriented change. Intersectionality will be an invaluable resource for anyone grappling with the main ideas, debates, and new directions in this field.

Collects essays and letters from African American feminists, addressing race and gender issues in the United States

"This book traces the long arc of Black women's relationship with technology from the antebellum south to the social media era demonstrating how digital culture transforms and is transformed by Black feminist thought"--

A provocative analysis of the new contours of black nationalism and feminism in America.
