Successful entrepreneur Jason Surfrapp (formerly Jason Headsetsdotcom and Jason Sadler) shares his hard-earned advice on how to use out of the box thinking to turn passions into profits. Creativity For Sale is the story of how Jason took a crazy idea (IWearYourShirt) and turned it into social media marketing empire that generated over \$1M in revenue in just a few short years. Whether you work at a 9-5 desk job, currently own your own business, or are an aspiring creative entrepreneur, this book will serve as a practical guide to helping you make money doing what you love. Jason shares his exact strategies, tips, tricks, and processes that have helped him create profitable businesses that get noticed by the likes of The Today Show, CNBC, Wall Street Journal, The New York Times, and many more media outlets. In Creativity For Sale, Jason shares stories of realigning his values and goals in life to become happier, healthier, and more focused. The world of online marketing and social media are noisy and crowded, this book will help you learn how to stand out from the crowd.

A left-brained salesperson uses logic and process to analyze their way to success. A right-brained salesperson flies by the seat of their parents to stumble upon exciting, innovative ways to bring in new business. Which is the better way to find success? Yes! When the left-brained learns how to integrate the right-brain aptitude for creativity, and the right-brained discovers how to draw on the left-brain affinity for operating analytically, a hybrid sales genius results who has learned how to address all their customers' needs and can land more sales than they ever imagined possible. Packed with real-life examples and powerful principles, The Innovative Sale reveals how to:

- Define the sales challenge
- Question assumptions and look for ways to reframe the problem
- Mine unrelated situations for fresh solutions
- Get comfortable with feeling lost as you explore new directions
- Break some rules and learn to "grow with the flow"

Drawing on the work of pioneering geniuses in design, architecture, and the arts, the tools and tips of this game-changing book will help any salesperson--left- or right-brained--unleash their own unique powers of intuition and innovation.

From a co-founder of Pixar Animation Studios—the Academy Award-winning studio behind Coco, Inside Out, and Toy Story—comes an incisive book about creativity in business and leadership for readers of Daniel Pink, Tom Peters, and Chip and Dan Heath. and the first-ever, all-access trip into the nerve center of Pixar Animation—into the meetings, postmortems, and “Braintrust” sessions where some of the most successful films in history are made. It is, at heart, a book about creativity—but it is also, as Pixar co-founder and president Ed Catmull writes, “an expression of the ideas that I believe make the best in us possible.” For nearly twenty years, Pixar has dominated the world of animation, producing such beloved films as the Toy Story trilogy, Monsters, Inc., Finding Nemo, The Incredibles, Up, WALL-E, and Inside Out, which have gone on to set box-office records and garner thirty Academy Awards. The joyousness of the storytelling, the inventive plots, the emotional authenticity: In some ways, Pixar movies are an object lesson in what creativity really is. Here, in this book, Catmull reveals the ideals and techniques that have made Pixar so widely admired—and so profitable. As a young man, Ed Catmull had a dream: to make the first computer-animated movie. He nurtured that dream as a Ph.D. student at the University of Utah, where many computer science pioneers got their start, and then forged a partnership with George Lucas that led, indirectly, to his co-founding Pixar in 1986. Nine years later, Toy Story was released, changing animation forever. The essential ingredient in that movie’s success—and in the thirteen movies that followed—was the unique environment that Catmull and his colleagues built at Pixar, based on leadership and management philosophies that protect the creative process and defy convention, such as:

- Give a good idea to a mediocre team, and they will screw it up. But give a mediocre idea to a great team, and they will either fix it or come up with something better.
- If you don’t strive to uncover what is unseen and understand its nature, you will be ill prepared to lead.
- It’s not the manager’s job to prevent risks. It’s the manager’s job to make it safe for others to take them.
- The cost of preventing errors is often far greater than the cost of fixing them.
- A company’s communication structure should not mirror its organizational structure. Everybody should be able to talk to anybody.

In his New York Times bestseller *Steal Like an Artist*, Austin Kleon showed readers how to unlock their creativity by “stealing” from the community of other movers and shakers. Now, in an even more forward-thinking and necessary book, he shows how to take that critical next step on a creative journey—getting known. *Show Your Work!* is about why generosity trumps genius. It’s about getting findable, about using the network instead of wasting time “networking.” It’s not self-promotion, it’s self-discovery—let others into your process, then let them steal from you. Filled with illustrations, quotes, stories, and examples, *Show Your Work!* offers ten transformative rules for being open, generous, brave, productive. In chapters such as *You Don’t Have to Be a Genius*; *Share Something Small Every Day*; and *Stick Around*, Kleon creates a user’s manual for embracing the communal nature of creativity—what he calls the “ecology of talent.” From broader life lessons about work (you can’t find your voice if you don’t use it) to

the etiquette of sharing—and the dangers of oversharing—to the practicalities of Internet life (build a good domain name; give credit when credit is due), it's an inspiring manifesto for succeeding as any kind of artist or entrepreneur in the digital age.

A look into what lies behind creativity from one of the advertising industry's leading players Creativity isn't an occupation; it's a preoccupation. It is challenge for everyone in the modern world—from business and advertising to education and beyond. Here, the world-famous advertising creative John Hegarty offers a pocket bible of creative thinking, aimed at provoking, challenging, and inspiring greater heights of innovation. From Renaissance art to rock 'n' roll, Hegarty takes a wide-angle view of creativity as he sets out to demystify the many ups-and-downs that can arise during the creative process. Paralyzed by the blank page? Daunted by cynics in the workplace? Money leading you astray? Hegarty combines personal experience and anecdotes along with clear, pragmatic, and good-humored insight into tackling all creative challenges head on. Over fifty entries, including "Good is the Enemy of Great," "Respect Don't Revere," "Get Angry," and "Bad Weather" relay useful and generous advice on how best to improve, sustain, and nurture creativity in any profession. Accompanied by copious irreverent line drawings from Hegarty's own sketchpad, Hegarty on Creativity is concise, accessible, and richly rewarding.

This project focuses on a business plan and template for developing proposals for potential clients. This covers the history of Creative Problem Solving (CPS); the effectiveness of CPS training; an example design of a workshop; business plan; memorandum of understanding; contract; and a template for fees. This project will add to the richness of the department, and create opportunities for our faculty, alumni, and current students to consult while spreading the CPS process and creativity around the world.

An essential guide for artist that teaches them how to skip the gallery system, find their niche, and connect directly with collectors to profitably sell their art. For years, galleries have acted as gatekeeper separating artists and collectors. But with the explosion of the Internet, a new generation of savvy, independent artists is connecting with buyers and making a substantial living doing what they love. How to Sell Your Art Online shows any artist how to make a successful living from their work. Cory Huff dispels

the myth of the starving artist and provides the effective business strategies necessary to make artistic creations pay. He helps individual artists find their niche; outlines the elements essential for an effective website; and provides invaluable advice on e-mail marketing, blogging, social media marketing, and paid advertising—explaining how to tie all these online activities into offline success. Most importantly, he shares the secret to overcoming the biggest challenge artists face when self-marketing: learning how to tell their unique stories. Every artist has a reason for making art, but can't always find the right way to express it. Huff provides exercises artists can use to clarify the intellectual and emotional process behind their art, and teaches them how turn that knowledge into stories they can tell online and in person—and expand their reach through blogs and social media to build their art business. Drawing from the stories of successful artists, thoroughly describing how art is sold today, and providing tips on how to build connections personally and electronically, *How to Sell Your Art Online* illustrates the countless ways artists can take control of their creative careers—and sell their work without selling out.
