It is a very helpful booklet with all the diatonic major and minor scales. The minor scales ascend in melodic minor, and then descend in natural minor. The rule in general music theory is that when you use mel minor, you always descend in natural minor. It was created that way in order to function with certain chord progressions.

In the diatonic pattern, the third is either major or minor: Major Third: The third note in a major scale, two whole steps (four half steps) above the tonic (or very first note). In the C major scale, E is four half steps above C, so the major third is E. Minor Third: 1.5 steps (three half steps) above the tonic.
