comprehensively covers every aspect of the subject and the syllabus for all diploma, certificate, or degree courses in civil engineering and draftsman courses.

Diploma Civil Engineering Estimating

Estimating and Costing are closely the same things. The estimate is defined as the process of calculating or computing the various quantities and the expected expenditure to be incurred on a particular work or project. The estimate gives the probable cost of the work. The primary objective of an estimate is to enable one to know the probable cost of the work before the completion of the project.
