Imbibing Java Web Services A Step By Step Approach For ...

Web services, in one form or another, have been around for more than two decades. For example, XML-RPC services appeared in the late 1990s, followed shortly by ones written in the SOAP offshoot. Services in the REST architectural style also made the scene about two decades ago, soon after the XML-RPC and SOAP trailblazers. REST-style (hereafter, Restful) services now dominate in popular sites ...

Learn Web Services Tutorial - javatpoint

There are two possible approaches when creating a web service: Contract-Last and Contract-First.. When we use a contract-last approach, we start with the Java code, and we generate the web service contract (WSDL) from the classes. When using contract-first, we start with the WSDL contract, from which we generate the Java classes. Spring-WS only supports the contract-first development style.
