HUMAN

DEVELOPMENT: A LIFE-SPAN VIEW, 2nd

8th Edition fills the need for a shorter text that emphasizes the essential, defining features of modern research and theory in human development.

Using a modified chronological approach and emphasizing the biopsychosocial

framework, the text provides: a readable account of human development across the life span; conceptual foundations that enable students to become critical interpreters of developmental information; and an introduction to relevant research and its application to key issues. The text also

Download File PDF Life Span

emphasizes the application of human development research across diverse professional settings, making it ideal for students who are pursuing a career related to psychology or areas such as education, health, and human sciences. Succinct and filled with real-life examples, this text will

before completing your purchase. Discovering the Lifespan provides a broad overview of the field of human development and features a strong balance of research and application. In a unique departure from traditional lifespan development texts, each chapter is divided into three modules, and in

Download File PDF Life Span

turn, each module is divided into several smaller sections.

Consequently, students encounter material in smaller, more manageable chunks that optimize learning.
