This is one in a series of manuals for car or motorcycle owners. Each book provides information on routine maintenance and servicing, with tasks described and photographed in a step-by-step sequence so that even a novice can do the work.

This book presents a broad overview of computer graphics (CG), its history, and the hardware tools it employs. Covering a substantial number of concepts and algorithms, the text describes the techniques, approaches, and algorithms at the core of this field. Emphasis is placed on practical design and implementation, highlighting how graphics software works, and explaining how current CG can generate and display realistic-looking objects. The mathematics is non-rigorous, with the necessary mathematical background introduced in the Appendixes. Features: includes numerous figures, examples and solved exercises; discusses the key 2D and 3D transformations, and the main types of projections; presents an extensive selection of methods, algorithms, and techniques; examines advanced techniques in CG, including the nature and properties of light and color, graphics standards and file formats, and fractals; explores the principles of image compression; describes the important input/output graphics devices.

A service and repair manual for the Land Rover series II, IIA & III.

Brand Revolution offers a radical new approach to brand management. With big brand case studies including L'Oreal and Jaguar, the author draws on her extensive experience as a marketing consultant to put together this highly engaging and practical book for developing, improving and controlling the identity of your brand.

UNDERBELLY HOOPS covers Carson Cunningham's final season in the storied and now defunct Continental Basketball Association (CBA). In the process, it takes a sober look at minor league professional basketball, as Cunningham tries to navigate a poor relationship with his coach and yet finish his career on his own terms by playing a final season and winning a championship. As UNDERBELLY HOOPS shows, the CBA was a realm where hopeful players desperately hung on and crusty motels might very well have no clocks. It was a place where a trainer could be ordered to fill the visiting team's cooler with warm shower water and a coach might tell a player (namely, Cunningham) that he was focusing too much on his marriage and child rather than basketball. It was also a place where entire hotel wings could become saturated with the pungent smell of marijuana. And yet, even as it chipped away at your dignity and made little economic sense to remain, the CBA drew you in with the allure of action and the prospect of an NBA call-up. And it could inspire, like when you and your teammates caught a rhythm that made you remember why basketball is such a beautiful game, or when you saw guys continue to strive, to persevere, even if their dreams weren't fully realized. "The hoops answer to Ball Four. By turns funny and poignant--and always self aware--this book allows fans into the locker room and huddle, yes, but also into the cortex of a professional basketball player. If Carson Cunningham could have jumped, run and created his shot off the dribble as masterfully as he writes and observes, he'd be starring in the NBA." --L. Jon Wertheim, Senior Writer for SPORTS ILLUSTRATED

Germany's economic miracle is a widely-known phenomenon, and the world-leading, innovative products and services associated with German companies are something that others seek to imitate. In The 'Made in Germany'Â' Champion Brands, Ugesh A. Joseph provides an extensively researched, insightful look at over 200 of Germany's best brands to see what they stand for, what has made them what they are today, and what might be transferable. The way Germany is branded as a nation carries across into the branding of its companies and services, particularly the global superstar brands - truly world-class in size, performance and reputation. Just as important are the medium-sized and small enterprises, known as the 'Mittelstand'. These innovative and successful enterprises from a wide range of industries and product / service categories are amongst the World market leaders in their own niche and play a huge part in making Germany what it is today. The book also focuses on German industrial entrepreneurship and a selection of innovative and emergent stars. All these companies are supported and encouraged by a sophisticated infrastructure of facilitators, influencers and enhancers - the research, industry, trade and standards organizations, the fairs and exhibitions and all the social and cultural factors that influence, enhance and add positive value to the country's image. Professionals or academics interested in business; entrepreneurship; branding and marketing; product or service development; international trade and business development policy, will find fascinating insights in this book; while those with an interest in Germany from emerging industrial economies will learn something of the secrets of German success.
