This guide offers helpful advice on how teachers,  
administrators, and career advisers in science and  
engineering can become better mentors to their students. It  
starts with the premise that a successful mentor guides  
students in a variety of ways: by helping them get the most  
from their educational experience, by introducing them to  
and making them comfortable with a specific disciplinary

culture, and by offering assistance with the search for suitable employment. Other topics covered in the guide include career planning, time management, writing development, and responsible scientific conduct. Also included is a valuable list of bibliographical and Internet resources on mentoring and related topics.

Take notes for critical thinking and clinical reasoning in every course, class, and clinical. Focus on prioritization in every subject to include fundamentals, medical surgical, mental health, pediatrics, and even community health. Nursing students will be able to focus on the nursing process every step of the way while ensuring that they are very comfortable with QSEN (quality and safety) and NCLEX competencies and standards. Noelle Molé Liston's *The Truth Society* seeks to understand how a period of Italian political spectacle, which regularly blurred fact and fiction, has shaped how people understand truth, mass-mediated information, scientific knowledge, and forms of governance. Liston scrutinizes Italy's late twentieth-century political culture, particularly the impact of the former prime minister and media mogul Silvio Berlusconi. By doing so, she examines how this truth-bending political era made science, logic, and rationality into ideas that needed saving. With the prevalence of fake news and our seeming lack of shared reality in the "post-truth" world, many people struggle to figure out where this new normal came from. Liston argues that seemingly disparate events and practices that have unfolded in Italy are historical reactions to mediatized political forms and particular, cultivated ways of knowing. Politics, then, is always sutured to how knowledge is structured, circulated, and processed. *The Truth Society* offers Italy as a case study for understanding the remaking

This resource helps teachers motivate struggling students with strategies that harness their interests and creativity, and encourages educators to create positive learning cultures for all students.

Ripped apart by Portugal's financial crisis, Daniel's family is struggling to adjust to circumstances beyond their control. His wife and children move out to live with family hours away, but Daniel believes against all odds that he will find a job and everything will return to normal. Even as he loses his home, suffers severe damage to his car, and finds himself living in his old, abandoned office building, Daniel fights the realization that things have changed. He's unable to see what remains among the rubble--friendship, his family's love, and people's deep desire to connect. If Daniel can let go of the past and find his true self, he just might save not only himself but also everyone that really matters to him.
