Guevara de la Serna and his friend Alberto Granado.

A New York Times bestseller With a new introduction by The Motorcycle Diaries filmmaker Walter Salles, and featuring 24 pages of photos taken by Che. The Motorcycle Diaries is Che Guevara's diary of his journey to discover the continent of Latin America while still a medical student, setting out in 1952 on a vintage Norton motorcycle together with his friend Alberto Granado, a biochemist. It captures, arguably as much as any book ever written, the exuberance and joy of one person's youthful belief in the possibilities of humankind tending towards justice, peace and happiness. After the release in 2004 of the exhilarating film of the same title, directed by Walter Salles, the book became a New York Times and international bestseller. This edition includes a new introduction by Walter Salles and an array of new material that was assembled for the 2004 edition coinciding with the release of the film, including 24 pages of previously unpublished photos taken by Che, notes and comments by his wife, Aleida Guevara March, and an extensive introduction by the distinguished Cuban author, Cintio Vitier. "A journey, a number of journeys. Ernesto Guevara in search of adventure, Ernesto Guevara in search of America, Ernesto Guevara in search of Che. On this journey, solitude found solidarity. 'I' turned into 'we.'"—Eduardo Galeano "As his journey progresses, Guevara's voice seems to deepen, to darken, colored by what he witnesses in his travels. He is still poetic, but now he comments on what he sees, though still poetically, with a new awareness of the social and political ramifications of what's going on around him."—January Magazine "Our film is about a young man, Che, falling in love with a continent and finding his place in it." —Walter Salles, director of the film version of The Motorcycle Diaries "All this wandering around 'Our America with a Capital A' has changed me more than I thought." —Ernesto Che Guevara, from The Motorcycle Diaries

"A journey, a number of journeys. Ernesto Guevara in search of adventure, Ernesto Guevara in search of America, Ernesto Guevara in search of Che. On this journey of journeys, solitude found solidarity, 'I' turned into 'we'." --Eduardo Galeano "When I read these notes for the first time, I was quite young myself and I immediately identified with this man who narrated his adventures in such a spontaneous manner... To tell you the truth, the more I read, the more I was in love with the boy my father had been..." --Aleida Guevara "Our film is about a young man, Che, falling in love with a continent and finding his place in it." --Walter Salles, director of "The Motorcycle Diaries." In January 1952, two young men from Buenos Aires set out to explore South America on an ancient Norton motorbike. The journey lasted six months and took them thousands of miles, all the way from Argentina to Venezuela. En route, there was disasters and discoveries, high drama, low comedy, fights,

parties and a lot of serious drinking. They met an extraordinary range of people: native indians and copper miners, lepers, police, wanderers and tourists. They became stowaways, firemen and football coaches, and joined in a strike. They sometimes fell in love, and frequently fell off the motorbike. Both of them kept diaries. One of them was a tall and good-looking medical student called Ernest Guevara de la Serna. Using the standard Argentinean nickname, others would sometimes refer to the two companions as Big Che and Little Che. In Ernesto's case, the nickname stuck. Within a decade the whole world would know Che Guevara. This is the story of that remarkable journey, eight years before the Cuban Revolution, in Che's own words, and illustrated with contemporary photographs. For Che, it was a formative experience, and amidst the humour and pathos of the tale, there are examples of his idealism and his solidarity with the poor and the oppressed. But it is far from being the diary of a militant, and sometimes very far from being "political correct," which may be the reason that the manuscript has only been made available now, a quarter century after Che's death in the Bolivian jungle. Instead, it is a record kept by an exuberant, intelligent and observant 23-year-old, describing what might have been the adventure of a lifetime—had his lifetime not turned into a much greater adventure.

This classic anthology on Latin America shows the Argentine-born revolutionary's cultural depth, rigorous intellect, and intense emotional engagement with a continent and its people. In a letter to his mother in 1954, a young Ernesto Guevara wrote, "The Americas will be the theater of my adventures in a way that is much more significant than I would have believed." In *The Awakening of Latin America* we have the story of those adventures, charting Che's evolution from an impressionable young medical student to the "heroic guerrilla," assassinated in cold blood in Bolivia. Spanning seventeen years, this anthology draws on from his family's personal archives and offers the best of Che's writing: examples of his journalism, essays, speeches, letters, and even poems. As Che documents his early travels through Latin America, his involvement in the Guatemalan and Cuban revolutions, and his rise to international prominence under Fidel Castro, we see how his fervent commitment to social justice shaped and was shaped by the continent he called home. Nearly half of this book is published for the first time and pre-dates Che's arrival in Cuba with Fidel Castro's guerrilla expedition in 1956. Also included are his notes for his unfinished book, *The Social Role of Doctors in Latin America*.

The journal of a young Argentine's second trip through Latin America, revealing the emergence of a committed revolutionary now known as "Che." This sequel to *The Motorcycle Diaries* includes letters, poetry, and journalism that document young Ernesto Guevara's second Latin American journey following his graduation from medical school in 1953. It reveals how the young Argentine is transformed into a militant revolutionary, ready to commit himself to the guerrilla struggle Fidel Castro and his compañeros are about to launch in Cuba against the dictatorship of General Fulgencio Batista. After traveling through Bolivia, Peru, Ecuador, and Central America, Ernesto witnesses the 1954 US-inspired coup in Guatemala, which has a profound effect on his political awareness. He flees to Mexico where he encounters Fidel Castro, marking the beginning of a political partnership that profoundly changes the world and Che himself. Includes a foreword by Alberto Granado, Che's companion on his first adventures in Latin America on a vintage Norton motorcycle, and features poems written by young Ernesto inspired by his experiences along with facsimiles of pages from his diary.

An expanded and freshly translated edition of the cult bestseller, for a new generation of Che Guevara fans. In January 1952, two young men from Buenos Aires set out to explore South America on 'La Poderosa', the Powerful One: a 500cc Norton. One of them was the twenty-three-year-old Che Guevara. Written eight years before the Cuban Revolution, these are Che's diaries -- full of disasters and discoveries, high drama, low comedy and laddish improvisations. During his travels through Argentina, Chile, Peru and Venezuela, Che's main concerns are where the next drink is coming from, where the next bed is to be found and who might be around to share it. Che becomes a stowaway, a fireman and a football coach; he sometimes falls in love and frequently falls off the motorbike. Within a decade the whole world would know his name. His trip might have been an adventure of a lifetime -- had his lifetime not turned into a much greater adventure.; Features exclusive, unpublished photos taken by the 23-year old Ernesto on his journey across the continent.; and a tender preface by Aleida Guevara, offering an insightful perspective on her father -- the man and the icon.

Published for the first time in the U.S. - one of the two diaries on which the upcoming movie *The Motorcycle Diaries* is based - the moving and at times hilarious account of Che Guevara and Alberto Granado's eight-month tour of South America in 1952. In 1952 Alberto Granado, a young doctor, and his friend Ernesto Guevara, a 23-year-old medical student from a distinguished Buenos Aires family, decided to explore their continent. They set off from Cordoba in Argentina on a Norton 500cc motorbike traveled through Chile, Peru, Colombia, and Venezuela. The duo's adventures vary from the suspenseful (stowing away on a cargo ship, exploring Incan ruins) to the comedic (falling in love, drinking, fighting...) to the serious (volunteering as firemen and at a leper colony). They worked as day laborers along the way - as soccer coaches, medical assistants, and furniture movers. The poverty and exploitation of the native population started the process that was to turn Ernesto - the debonair, fun-loving student - into Che, the revolutionary who had a profound impact on the history of several nations. Originally published in Spanish in Cuba in 1978, the first English translation was published by Random House UK in 2003. The movie, based on Granado's and Che's diaries, directed by Walter Salles (*Central Station*, *Behind the Sun*), was produced by Robert Redford and others. Shown at the Sundance Film Festival, it generated great reviews and a frenzied auction for distribution rights, which was won by Focus Features. Granado, now 82, was a consultant to Salles during the production.

These diaries, written during Che Guevara's riotous motorcycle odyssey around South America, are the subject of two new films being produced by Robert Redford and Steve Soderburg, respectively.

Unmarked screenplay, dated Third Draft 10/05/2004. This film starring Gael Garcia Bernal as Che Guevara is about a trip from Argentina to Peru, which contributed to making Guevara a revolutionary. Released in the United States Sept. 24, 2004 by Focus Features.
