Tissue paper hot air~~

A retail hot air balloon made of paper has a dimension of 15" x 22.8" x 40.6". This is probably the minimum size to make a hot air balloon. There needs

Online Library

Tissue Paper

to be sufficient air space to be able to lift the weight of the materials used. Going any smaller will most likely not fly unless you are filling the air space with a lighter-than-air gas.
