More than twenty years ago, a disillusioned college graduate named Peter Jenkins set out with his dog Cooper to look for himself and his nation. His memoir of what he found, *A Walk Across America*, captured the hearts of millions of Americans. Now, Peter is a bit older, married with a family, and his journeys are different than they were. Perhaps he is looking for adventure, perhaps inspiration, perhaps new communities, perhaps unspoiled land. Certainly, he found all of this and more in Alaska, America's last wilderness. Looking for Alaska is Peter's account of eighteen months spent traveling over twenty thousand miles in tiny bush planes, on snow machines and snowshoes, in fishing boats and kayaks, on the Alaska Marine Highway and the Haul Road, searching for what defines Alaska. Hearing the amazing stories of many real Alaskans--from Barrow to Craig, Seward to Deering, and everywhere in between--Peter gets to know this place in the way that only he can. His resulting portrait is a rare and unforgettable depiction of a dangerous and beautiful land and all the people that call it home. He also took his wife and eight-year-old daughter with him, settling into a "home base" in Seward on the Kenai Peninsula, coming and going from there, and hosting the rest of their family for extended visits. The way his family lived, how they made Alaska their home and even participated in Peter's explorations, is as much a part of this story as Peter's own travels. All in all, Jenkins delivers a warm, funny, awe-inspiring, and memorable diary of discovery--both of this place that captures all of our imaginations, and of himself, all over again.

Ever wondered what it is like to be captain on a cruise ship? This book gives you more information than you will ever need.. The Captain's Journal is a sequel to the successful Captain's Log. Author Hans Mateboer, long time captain for some of the worlds most prestigious cruise lines takes you on a wonderful journey of personal experiences. Many of the stories you will read are hilarious, some are compassionate but in the end, every story goes back to the basics of everyday life on board these great ships.

In this coming-of-middle-age memoir, Kim Heacox, writing in the tradition of Abbey, McPhee, and Thoreau, discovers an Alaska reborn from beneath a massive glacier, where flowers emerge from boulders, moose swim fjords, and bears cross crevasses with Homeric resolve. In such a place Heacox finds that people are reborn too, and their lives begin anew with incredible journeys, epiphanies, and successes. All in an America free of crass commercialism and overdevelopment. Braided through the larger story are tales of gold prospectors and the cabin they built sixty years ago; John Muir and his intrepid terrier, Stickeen; and a dynamic geology professor who teaches earth science "as if every day were a geological epoch." Nearly two million people come to Alaska every summer, some on large cruise ships, some in single kayaks--all in search of the last great wilderness, the Africa of America. It is exactly the America Heacox finds in this story of paradox, love, and loss.

This international bestseller is completely updated with new information on adventure hiking and land travel. With coverage of ports from Seattle to Anchorage and the Bering Sea--plus the Yukon and Inside Passage--this book is the benchmark of cruise guides to Alaska.

Cruise ships can be compared to small floating cities, and unlike their counterparts ashore, they actually move around. This makes them unique, as one day a ship can be found in Manhattan, and a few weeks later she could be in the South China Sea. This book is about 'normal' everyday people who sail on these ships, who just like their counterparts ashore do have their faults, their hopes and at times achieve their share of greatness. The captain sits at the top of the ships pyramid and if he listens well, hears most of what happens on board his ship. Shifting through the enormous pile of material, I decided to use almost exclusively stories which were funny to (almost) all involved. Every chapter you will read, truly happened. The characters, truly existed, although I did change names and ships around a bit. This book is a picture of my life and undoubtedly that of many others who have spend a considerable time at sea.

A guide to unexplored anchorages on British Columbia's Inside Passage. Just off the Inside Passage's beaten path are countless channels, bays and lagoons that beg exploration. Some are easy, some can be entered only during a few minutes at high water slack. Waggoner correspondents Jennifer and James Hamilton have researched many of these hidden jewels, and provided detailed navigation instructions. Plus history, sights to see, trails and logging roads to walk. Added chapters discuss anchoring techniques, water conservation, food & meal planning, even laundry.
